

# QuikClot® portfolio of products can handle a variety of bleeding scenarios.

# Kaolin is the *unique differentiator* for all QuikClot® hemostatic products

QuikClot® is a proprietary technology, which consists of a nonwoven material impregnated with kaolin. Kaolin activates Factor XII on the intrinsic pathway, which in turn accelerates the clotting cascade leading to faster bleeding control.<sup>3,4\*</sup>

# Activates Kaolin Activates Factor XII (Intrinsic Pathway) Accelerates Accelerates the Clotting Cascade Formation Robust Clot Formation<sup>1,2</sup> Control Faster Bleeding Control<sup>3,4\*</sup>

## Safe and intuitive as the standard of care

- Safe and intuitive as standard gauze<sup>5</sup>
- Same placement technique as standard gauze with these added benefits:

Faster time to hemostasis

Robust clot formation<sup>1,2</sup>

Fewer rebleeds<sup>1</sup>

A vital addition to procedural carts, QuikClot® hemostatic products can routinely be used for a variety of "nuisance" bleeding, such as abrasions to traumatic injuries.

### **Emergency Department bleeding scenarios such as:**

- Anterior nose bleeds (Epistaxis)
- Wide range of lacerations
- · Bleeding AV fistula
- Finger tip avulsions
- Stabbing or puncture wounds
- Varicose vein bleeding
- Road rash
- Wounds/ulcers
- Postoperative wound dehiscence
- · Mutilated amputations
- Skin tears

QuikClot® hemostatic products can handle all types of bleeds including interventional patients who are anticoagulated.

\*Based on testing when compared to standard gauze.

The Military's CoTCCC recommended hemostatic of choice for over 12 years<sup>5</sup>

### **QuikClot® Product Ordering Information**

PRODUCT	PRODUCT NUMBER	PRODUCT DESCRIPTION	UNITS PER BOX
QuikClot®			
QuikClot® 4x4	459	4 in. x 4 in., in 4-ply	10/box
QuikClot® Roll	461	3 in. x 4 yds.	10/box
QuikClot® Z-Fold	487	3 in. x 4 yds.	10/box
QuikClot® Interventional® Device			
QuikClot® Interventional® with 3M Tegaderm™ Bandage	183	1.5 in. x 1.5 in., with 3M Tegaderm™ bandage	10/box
QuikClot® Interventional® Pre-Slit with 3M Tegaderm™ Bandage	188	1.5 in. x 1.5 in., pre-slit with 3M Tegaderm™ bandage	10/box
QuikClot® Interventional®	467Z	1.5 in. x 1.5 in.	10/box

### QuikClot®:

QuikClot® Hemostatic Device is intended for use as a topical dressing for local management of bleeding wounds such as cuts, lacerations and abrasions. It may also be used for temporary treatment of severely bleeding wounds such as surgical wounds(operative, postoperative, dermatological, etc.) and traumatic injuries.

### OuikClot® Interventional® Device:

Applied topically as an adjunct to manual compression and is indicated for the local management and control of surface bleeding from vascular access sites, percutaneous catheters or tubes utilizing introducer sheaths up to 12 Fr. or up to 7 Fr. for patients on drug/induced anticoagulation treatment.
